Orlando, FL 32803

Dear Stephan,

The written evaluation sheets completed by the attendees from your classes regarding Internet marketing were all excellent (no surprise there!). But the fantastic news is I still hear positive feedback and requests for more seminars taught by TOLS Multimedia.

Thank you so much for sharing such valuable information with the members of our association. Some of the attendees in the last few classes had little to no experience with Internet marketing or the social media, while others were well versed. But during each class you were able to enthusiastically teach to all levels of experience. I was stunned by the level of participation of the attendees and their eagerness to learn more. Your class was very interesting and extremely informative and we look forward to the next.

Sincerely,

  
Barbara Ferencak  
Director of Foundation Programs
