Dear Mr. Boehringer,

We would like to take this opportunity to express our deep gratitude for sharing your time and expertise with Winter Park Tech's Web Design class. Your lecture on Internet Marketing truly inspired all of the students in attendance. Your presentation was stimulating, and we learned a lot from your marketing wisdom and experience.

We especially appreciate that even though you are a very busy businessman you donated your time to help your community and to mentor students by sharing information, advice, and resources. Your assistance has been invaluable to our curriculum, and we hope to have you visit our campus again very soon.

Again, we appreciate the time you took to visit us.

Sincerely,
