

# C.JORDAN ENTERPRISES

January 20, 2010

To Whom it May Concern:

Friendly Confines needed to develop a website that brought people to the restaurant and TOLS Multimedia came highly recommended. We have been with TOLS for a little over 2 years now and are very happy with the work they are doing. Not only have they built us a great website, they are also managing our newsletter system. Traffic is increasing to the site every month and we are planning on expanding our internet marketing more into social media.

TOLS is always accessible when we have questions. All concerns are addressed immediately and often their team makes recommendations as to how can we improve our web presence.

We highly recommend TOLS Multimedia for all of your internet development and marketing needs. Give them a call today.

Ryan Hearrell

SINCERELY,
